To Our Valued Partners:

Due to the unfortunate price increases we are experiencing in raw material and component costs; we will be removing the plastic liners from all Aerocool units to be more cost-effective and stay ahead of these inflationary circumstances. This removal will not alter the quality or warranty of the unit, all warranty stays the same.

Phoenix Manufacturing is committed to producing the highest quality products and service in the evaporative cooling industry and will continue to do so as we navigate through the current economic climate. We appreciate your understanding and continued support as we collectively adjust to these ongoing changes. We hope to maintain many more years of business relations and look forward to serving our valued customers.

If you have questions or concerns, please don't hesitate to contact our customer service team, or visit our website for updates.

Thank you.

Sincerely,

Robert Ortega
Sr. Manager of Sales and Marketing
